

**CASA**  
 Court Appointed Special Advocates  
 FOR CHILDREN

The CASA Advocate named below would like to transport the child or children assigned by CASA from time to time, so that the best interests of the child(ren) can be better understood. The CASA Advocate has provided Macon County CASA with the necessary documents and is approved to provide transportation for CASA purposes in the case(s) assigned.

Our CASA Advocate, according to our policy, also needs the permission of the custodial agency to begin transporting. This approval can be provided by the agency case manager or supervisor. If necessary, our CASA Advocate has a copy of the CASA Application and CASA policy pertaining to transportation of minor children.

Your signature on behalf of the custodial agency will act as approval by the custodial agency for our CASA Advocate to begin offering transport occasionally as a means to improve his/her understanding of the case consistent with the goal adopted by the court.
